Chrome 21 and higher																																									
MS Internet Explorer 9 / 10 / 11																																									
Mobile Functionality:																																									
Compatibility-code																																									
Mobile Application Server																																									

Notes:  
 S = Supported with GA version Functionality has been verified  
 S = Supported with E-distribution S  
 S1 = For Windows 10 you need to use SDK 16.0 SP02 P102 or higher.  
 S2 = Supported from DB2 10.1.04 or later.  
 S3 = Available for 64bit platforms only  
 \* The WRD is built using Java 8 targeting JRE 6 or higher and is verified using Tomcat 8. It requires a Java EE compliant web server that supports Servlet API, versions 2.3 through 3.1, using Java 6 or higher, preferably using the latest update of Java 8. For TLS connection with Uniface Router Java 8 or higher is required.  
 (H) The Uniface Anywhere product itself is not part of the distribution; mentioned versions are current at release time of this Uniface release  
 (++) Unicode enabled - import signature and recompile calling component(s) (see release notes)  
 (\*\*\*\*) CEF: Uniface Htmwidget uses the CEF branch v3.2454.1344 (as of F103) with the corresponding chromium version 45.0.2454.26.  
 (\*\*\*\*+) Supported on Linux with PostgreSQL ODBC version 9.x  
 NOTES:  
 Virtualization technologies : Uniface does not explicitly test or certify products running in virtual environments. More details are available on Uniface.info.  
 Web browser Versions: The versions of web browsers listed are the versions we have used for verification purposes. We will provide support for browser versions which are generally available in the marketplace (and supported by the supplier). More details are available on Uniface.info  
 Uniface 64-bit client support is for deployment. More details are available on Uniface.info
